

VIPAR Heavy Duty Family of Companies

GLOBAL PARTS NETWORK

CORPORATE OVERVIEW

Global Parts Network, LLC (GPN) is a wholly-owned subsidiary of VIPAR Heavy Duty that provides seamless service and support to the distributors and suppliers of the VIPAR Heavy Duty family of companies to satisfy the replacement parts needs of commercial vehicle operators and maintenance facilities.

GPN's Product Distribution Center (PDC) brings demand chain partners together to create business process efficiencies and specialize in high volume, fast moving parts to meet the needs of distributors and their end-user customer for the right products.

In addition, GPN operates a state-of-the-art Brake Manufacturing Production Center in South Bend, Indiana, focused on the production of new and remanufactured brake shoes, brake shoe kits, friction material and related parts.

GPN's Brake Manufacturing Production Center brings together today's most exacting manufacturing operations with industry-leading friction suppliers. As one of the top brake manufacturing operations in the industry, GPN assembles all of its products at its South Bend facility under the strictest standards of quality and environmental control.

The unique brake manufacturing process followed by GPN goes from initial planning through manufacturing to the final inspection and packaging process to ensure the tightest quality control possible.

The day-to-day operations of GPN are led by its general manager Jay Pagano, who has more than 46 years of experience in the heavy duty aftermarket, including the past 20 years with VIPAR Heavy Duty and its family of companies.
